

<b>In-house EDI</b>	<b>Promethean Software Services Managed EDI</b>
<b>You are responsible for all EDI operations.</b>	<b>You maintain control while we manage all the support, maintenance, onboarding partners, updates, testing, etc.</b>
<b>Hosted on your servers and hardware with all associated costs.</b>	<b>Hosted on Prometheus platform, eliminating hardware, upgrading, and maintenance and ensuring the latest technologies are always in place.</b>
<b>From software and hardware to mapping, you assume all responsibility.</b>	<b>We take care of every component: connecting, mapping, data transferring, and ongoing support.</b>
<b>You are responsible for initial software costs and licensing fees, resulting in variable, unpredictable ongoing costs.</b>	<b>No software or licensing fees. Monthly charges tailored to your organization's needs, so you are not paying for more than you should.</b>
<b>Additional technical and costs concerns of security.</b>	<b>Our Prometheus platform is all-inclusive, secure, and state-of-the-art.</b>
<b>Must hire skilled and knowledgeable employees and train.</b>	<b>Specialized expertise and experienced project teams, allowing you to refocus staff and resources into new areas and reduce current workload.</b>
<b>Manage multiple online portals.</b>	<b>Access to one customized dashboard for all EDI partners and reporting capabilities.</b>
<b>Submit a helpdesk ticket and wait for a response.</b>	<b>Immediate and direct access to a dedicated team of experts.</b>
<b>Monitoring and support challenges to correct errors.</b>	<b>Comprehensive monitoring and alerts in real-time with fewer manual touch points and reduced errors.</b>
<b>Data accessibility and analysis can be challenging.</b>	<b>Data and document storage and archiving, both short and long term, allowing for customized analytics.</b>
